GREEKS LOSE FULL DIVISION TO TURKS, ANATOLIA REPORT

Eski-Shehr in Asia Minor,
Recently Taken, Recaptured by Nationalists.

IMPORTANT JUNCTION

Protest Is Sent to Allies by
Constantinople Against
Further Invasion.

BRITISH ARE WITHDRAWN

Athens Claims Victory in
Three Advances Against
Northern Heights.

By the Associated Press.
CONSTANTINOPLE, March 30.—An entire Greek division has been captured by the Turks at Eski-Shehr and the Greeks are fleeing from that city, according to notices posted up in Anatolia.

The Greeks thus far have made no statement on this report.

Greek troops occupied the city of Eski-Shehr, in Asia Minor, Monday night. This was one of the important objectives of the Greek offensive, as it is a junction point between the main line of the Bagdad Railway and the road running southeasterly toward Konia.

The advances reporting the capture of Eski-Shehr by the Greeks said they had taken many prisoners and a large quantity of war materials. The occupation of the city opened the way for an advance on Angora, headquarters of the Turkish Nationalists.

The Turkish Government to-day made public a note to the Allies protesting formally against the Greek offensive in Asia Minor.

The Government declares the offensive constitutes an unjustified aggression against Turkey at the moment when the Allies are seeking to solve peacefully the Near Eastern problem.

Discussing the Greek military movement against the Turks, Gen. Cousins, of the Greek Military Mission, said to-day, "If we occupy Anatolia it will take 200,000 men."

Mustapha Kemal Pasha, head of the Turkish Nationalists, has issued a widespread appeal to the Islamic races to send recruits and a hurry call to the army under Kiazim Kara Bekir. Division of the Chilian army are arriving at Angora, indicating that the withdrawal of Kemal's forces from the Bagdad Railway had long been planned.

"The fighting initiative belongs to us, if necessary, we will retreat to Erzurum in order to preserve the army for decisive battles. Turks should not be alarmed at the Greek claims of victory. It is due to the fact that our army numbered only 60,000, theirs 100,000. When the forces are equal we will strike."

The British, wishing to show neutrality in the Turkish-Greek campaign, have renounced command of the Greek Second Division in the Ienid district which has been defending Constantinople to-day.

ATHENS, March 30.—An official communication made public to-day says: "The attack of the Northern (Greek) army group continues furiously near the village of Aydin, where the Greeks are gaining inch by inch, using bayonets, bombs and machine guns. The centre has attacked the heights north of Tepin, driving out the enemy, which retreated southward."

"The right wing, debouching from the Karakle Pass, has assaulted the heights between Bosphor and Kara Agouch and occupied the line of Eghion-Kara Agouch."

"Prisoners have been taken in all the actions. The war material captured includes 300 camels laden with supplies. The enemy casualties have been heavy."

[This fighting in the North is a separate operation from that which, with Smyrna as a base, is moving northeast toward Angora, after capturing Afion Karohissar and cutting the Bagdad railroad.]

A SYMBOL OF VALUE

No other papers in the world are so widely used for symbols of value as CRANE'S Papers.

The two great symbols of value are securities and currency.

More securities [stocks, bonds, notes, certificates public and private, public utilities, railroads and industrials, domestic and foreign] are engraved on CRANE'S Bond than on any other paper.

More paper money is engraved on CRANE'S Bank Note Paper than on any other paper.

These two products of the Crane Mills at Dalton have the qualities required by paper used as a symbol of value. They have the feel, the looks and the durability which selected new rags give to paper.

1,400 Irish Boys and Girls Leave This Week for U. S.

QUEENSTOWN, March 30.—The emigration of Irish boys and girls to the United States will be fairly begun here this week. Fourteen hundred will embark here on the Carmania, Cedric and Havercord. Irish policemen are doing duty at the American Consulate, apparently in order to prevent overcrowding by persons desiring to emigrate.

BRITISH NOT TO BAR AID HERE TO IRISH

Necessary Only Because Sinn Fein Spurs Help From United Kingdom.

By the Associated Press.
WASHINGTON, March 30.—Charitable organizations constituted on "a strictly non-political basis" in this country which desire to deal "in an impartial spirit with any case of Irish distress" will find no unnecessary difficulties in their way, the British Embassy said in a communication on the subject made public to-day.

The communication in full follows: "Widespread misapprehension appears to exist in regard to the necessity of raising funds from America to exist as a result of the worldwide depression in trade, but this depression has been less severe in Ireland than in England, owing to the fact that Ireland is largely an agricultural country."

"Apart from these cases of genuine unemployment, common to all countries at the present moment, and apart from the unhappiness but normal poverty of the slums of towns, every case of distress and destitution is directly due to the effects of the Sinn Fein rebellion. Steps have been taken to meet even these cases. Millions of pounds have been made available from money raised by taxation in the United Kingdom to build houses, to encourage land settlements and to promote employment schemes and the general work of reconstruction, but the counties and cities of Ireland which are Sinn Fein in sympathy refuse to accept this money and prefer to appeal to America for charity."

"While it is not for this attitude, there is no case of distress affecting any individual or his property which could not be adequately met from British sources. Particularly it should be emphasized that there is no shortage of food in Ireland."

"As regards the schemes on foot in this country to raise money for the relief of the distress in Ireland, the British Government, while not agreeing that there is any need for American charity in Ireland, will place no unnecessary difficulties in the way of any charitable organization which is constituted on a strictly non-political basis and deals in an impartial spirit with any case of Irish distress brought before it."

CORK IS GRATEFUL FOR HARDING'S FUND O. K.

Needed to 'Restore Buildings and Relieve Distress.'

Cork, March 30.—The Harbor Board to-day unanimously adopted a resolution proposed by Liam Roisette, Sinn Fein member of the British Parliament, expressing appreciation of President Harding's endorsement of the projected fund for reconstruction work in Ireland and assistance for the struggling people.

Sir John Scott, in seconding the resolution, said publicity should be given the fund, so the needy sufferers of Ireland could make application for a loan. "Gratitude for President Harding's support of the movement in America to raise funds for the suffering in Ireland has been cabled to the White House by the Lord Mayor of Dublin. The grand old man of Ireland," the cablegram said, "are sincerely gratified by your encouragement of the movement to give them financial support. America was always true to Ireland in her hour of trial. The funds are urgently needed to restore buildings destroyed and to relieve distress."

EX-EMPEROR CHARLES FAILS IN PLOT TO REGAIN THRONE

Continued from First Page.

consternation when he was shown into the guests' waiting room. "I was so sorry to see Admiral Horthy" (the Regent), said Charles, "call him to me." To this demand Horthy sent back the word: "At present I am head of the Hungarian State. Nobody has a right to send for me."

Later a meeting between Charles and Horthy took place in a small room on the first floor. The former King of Hungary entered the room and, seeing Horthy, greeted him in a most friendly manner. He drew from his pocket Hungary's highest military decoration, the cross of the Marie Theresia Order, and affixed it to Horthy's breast.

Horthy accepted the cross, but he firmly insisted that he was not willing to hand over power to Charles and declared that he would offer armed resistance if an attempt were made forcibly to overthrow the present regime.

After three hours of warm discussion Charles, with tears in his eyes, consented to leave Hungary immediately. When passing a curtseying porter as he was leaving the room, the former King said: "Farewell, forever."

Charles, when he reentered by automobile in Steinhilber, had changed his mind and declared he would not pass over the frontier. He said he was feeling ill and went to bed in Bishop Mike's castle.

Count Bethlen, who at one time was adviser to the former Premier, Archduke Joseph, has a strong force of troops at his disposal to suppress any civil war movement that would be attempted. Premier Teleki, Count Julius Andrássy, former Foreign Minister and friend of the former ruler, and Count Bethlen are endeavoring to persuade Charles to leave Hungary immediately.

Charles is under strict military supervision in Steinhilber. He has been deserted by his staunchest supporters and is not permitted to leave his room in Steinhilber Castle to see his friends. The former Emperor informed the government to-day that he was preparing for removal immediately to some neutral country, probably to Spain. The Spanish representative, Count Reale de Guarcas, told Regent Horthy to-day that Charles was under Spanish protection and that he was not to be offered his hospitality to the ex-ruler.

Bishop Count Mike, who, with many representatives of the Hungarian aristocracy, was at Steinhilber with the former Emperor, has been arrested, charged with being the head of the movement to restore Charles to the throne. Gen. Lehar, in command at Steinhilber, was suspected of backing the former monarch with the West Hungarian army, asserted to-day he was loyally supporting Regent Horthy against the plotters.

Gen. Belitska, the War Minister, declared: "The former King is not supported by the troops. The army as one man is standing behind Regent Horthy. Charles is a prisoner, rather than a guest, at Steinhilber."

Amid stormy scenes to-day a mass meeting called by the Farmer's party adopted a resolution asserting that Charles was a prisoner, rather than a guest, at Steinhilber. The newspaper have not yet been permitted to publish news of the attempted coup, but it gradually is being learned by the populace, who knew nothing of the office of the Chancellor at the embassy and asked what he thought of Charles' coup.

"Not," said one of the two officials who were sitting there. "Who won the boat race?" The German officials said that the Hungarian situation is not parallel to that of Germany, and that Charles' position cannot be compared to that of the Kaiser.

"Any mind that connects the return of King Constantine to Greece and the return of Charles to Hungary with the return of the Kaiser to Germany is provincial, to say the least," one of them said.

"It is not a case of a step by step progress toward the restoration of monarchies in Central Europe, because Germany is not on the same road at all."

VIENNA, March 30.—The Austrian Government is strongly objecting to the return of the Hapsburgs to power.

FRONTIERS GUARDED TO HALT EX-RULER

By the Associated Press.
VIENNA, March 30.—The Austrian Government is strongly objecting to the return of the Hapsburgs to power.

Germany is for progress. Every sane German knows that the return of the Kaiser, even conceding that Germany wanted him, which isn't a fact, would destroy every hope of Germany getting back on her feet.

The Germans looked upon Charles' venture in the same way as did the Foreign Office and said that they thought Charles was badly advised when he was told in Switzerland that the people of Hungary were eager for him to come back.

Both the British and Germans recognize Admiral Horthy, the Hungarian Regent, as a monarchist, and his cold reception shows what little chance the former Emperor has.

The Germans when pressed to answer the question whether they thought Charles' efforts to regain the throne would mean the Kaiser's turn next said decidedly that they did not. They said the Germans realize that they would lose all hope of any reparations settlement if the Kaiser were welcomed back, and the hope of Germany is to settle her foreign affairs as she can go ahead.

If the Kaiser attempted to return and was received by his friends in Germany, they said, the Socialists would join the Communists and the powder magazine upon which Germany is now sitting would explode, completely wrecking the country for all time. Besides, they added, there is not the same feeling about a monarchy in Germany as in Hungary.

SWISS MAY PREVENT RETURN OF CHARLES
By the Associated Press.
GENEVA, March 30.—The flight of former Emperor Charles from Switzerland was unknown to his household at Prangins, except his wife Zita, who wished to accompany him, but was not strong enough to leave her new born baby. (Her seventh child, a girl, was born March 1, the second born in exile.) His entourage expressed surprise to-day at the escape and anxiety concerning the future position of the Hapsburgs in Switzerland. There are at the present time four Archdukes residing in Switzerland.

The police force around the Prangins residence was doubled to-day. The Federal Council is considering whether Charles shall or shall not be allowed to return, and an early decision is expected. It is thought probable he will be barred from the country.

Geneva, Switzerland, March 29.—The visit of Charles to Austria and Hungary has created a bad impression in Switzerland. The newspapers bitterly reproach Charles for what they describe as his "boisterous and ingratitude to his people in Switzerland," and express the hope that he never will be allowed to return to this country.
